EXPERIENCE

Undergraduate Course Assistant

September 2024 - May 2026

University of Massachusetts Amherst

Amherst, MA

- Responsible for administrative tasks of **200+ students** in multiple classes (Search Engines, Introduction to Computation).
- Facilitated office sessions for 20 people to enhance understanding about Induction, A* Algorithm, RAG, PageRank, LLM.
- Designed code skeletons for students to implement various aspects of search engines (indexing, ranking, text processing).
- Contributed to a Retrieval Augmented Generation (RAG) pipeline combining IR (inverted index, TF-IDF) with LLMs (Qwen, Llama), enabling a transformer model to generate specific responses using dynamically retrieved knowledge for teaching.

Full-stack Web Developer Intern

June 2025 - August 2025

Van Phuoc Medic

Ho Chi Minh city, VN

- Designed and developed a website using HTML/CSS, JavaScript, SQL, Node.js, achieving 99,99% up time
- Optimized SQL database schemas and queries to manage patient inquiries, appointment requests, and website content, improving data retrieval performance and backend reliability.
- Containerized with Docker and utilized Jenkins to deployed websites using AWS EC2, S3, Route53, and Lambda.
- Improved overall user experience and maintained the website's hosting domain and registration, resulting in a 90%+ customer satisfaction rate and a 50%+ increase in unique customer/patient visits based on internal statistics.

Software Developer Intern

June 2024 - August 2024

FPT Software

Ho Chi Minh city, VN

- Collaborated with a 15+ member team to develop and maintain company's internal software using C#, XML and .NET
- Addressed 1000+ patients** with organ abnormalities based on database estimates by **creating 4 key features**, including listing patients' medical history, double screen view, screenshot and comparing difference between pictures.
- Spearheaded a Python program that analyzed metadata with 20+ datatype from existing application systems, **reducing execution time and debug time by 95+%.**

Technical Member

Aug 2021 – May 2022

Entropy 12

Ho Chi Minh city, VN

- Leveraged HTML/CSS, SQLite, MaterialUI, JQuery, Node.js, Socket.io, and Flask to develop a web application, **assessing 50+ users general aptitude** and **broadcasting to live audience, peaking 300 people concurrently.**
- implemented a question management database supporting **1,000+ categorized questions** with randomized selection and difficulty scaling, with a dashboard for admins to input, review, and edit questions efficiently.

PROJECTS

Web Scrapping Trading Bot | Python, Selenium, BeautifulSoup, Scrapy, Pandas, PostgreSQL, JWT, Scikit-learn 2024–2025

- Created A Python-based trading bot that earned **50%+ net profit in 13 months**, outperforming the VNIndex benchmark by **40%+ percentage points** using a self-developed algorithm based on live news sentiment and price signals.
- Scraped 1000 news & search results/day** by orchestrating a headless-Chrome pipeline with Selenium Grid, rotating proxies, and BeautifulSoup/Scrapy parsers, capturing 87% of relevant VNIndex headlines in near real time.
- Built a logistic regression model that trains on 5 years of stock market and news sentiment data.
- Maintained zero authentication failures **across 3000 API calls** by using JWT to refreshes tokens and signs trade orders.

CERTIFICATES/ AWARDS

AWS Certified Cloud Practitioner | Amazon Web Services (AWS) 2025

Docker Foundations Professional Certificate | LinkedIn Learning Certificate of Completion 2025

EDUCATION

University of Massachusetts Amherst

Amherst, MA, USA

Master of Science in Computer Science

Expected May 2027

University of Massachusetts Amherst

Amherst, MA, USA

Bachelor of Science in Computer Science and Mathematics (GPA: 3.8/4.0)

May 2026

SKILLS

Languages: Python, JavaScript, TypeScript, C, C++, C#, SQL, Java, HTML, CSS

Frameworks/libraries: Node.js, Express, React, JQuery, Socket.io, .NET, XML, Bootstrap, pandas, NumPy, PyTorch, Flask

Developer Tools: Git, Docker, AWS, VS Code, OpenAI, Jira, Confluence, Postman, Heroku, Jenkins, Google Colab, Claude Code
